

## Monthly update – Burwood North

3 July 2023

### Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West. Acciona Ferrovial Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including Burwood North Station.

### Work during July

Excavation, tunnelling and civil work will continue within and around the Burwood North Station sites throughout July. The main activities on the northern site are excavation of the station box and crossover cavern, while capping beam work and shaft excavation are the focus on the southern site.

#### Work during July includes:

- Excavation of the station box and loading out excavated material from the northern site
- Tunnel excavation and lining work for the crossover cavern west of the station box
- Nozzle excavation east of the station box
- Rock bolting and shotcrete spraying within the station box excavation
- Concreting work on both sites including slabs and capping beams
- Shaft excavation and loading out excavated material from the southern site
- Utility work on Burwood and Parramatta roads, as well as Neichs Lane
- Installation and removal of fencing, scaffolding and hoarding which will be adjusted as work progresses
- Utility work for new driveways and construction of new driveways on both sites
- Installation of underground and overhead services for utility connections
- Road surface repair work on Loftus and Burton streets
- Delivery and pick up of oversize equipment to and from both sites

This work will be carried out during standard construction hours:

- Monday to Friday 7am – 6pm and Saturday 8am – 6pm

Activities associated with tunnelling, including cavern excavation, haulage of excavated material and material delivery is approved for 24-hour operation seven days a week. After 10pm excavated material removal and material delivery will be using the site driveways on Parramatta Road only.

#### Work outside standard construction hours

Some of the utility relocation, hoarding adjustment and driveway construction work as well as oversize deliveries must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers.

This out-of-hours work will be carried out progressively on Burwood Road, Parramatta Road, Burton Street, Neichs Lane and Loftus Street (corner of Parramatta Road) between 8pm and 5am on Monday, Tuesday and Thursday nights from **Monday 10 July** until

The Central Tunnelling Package  
virtual engagement room for  
Sydney Metro West is now live.

or scan the QR code.

**Friday 4 August 2023.** At times, low impact concreting work may extend beyond standard construction hours between 6pm and 10pm during weekdays.

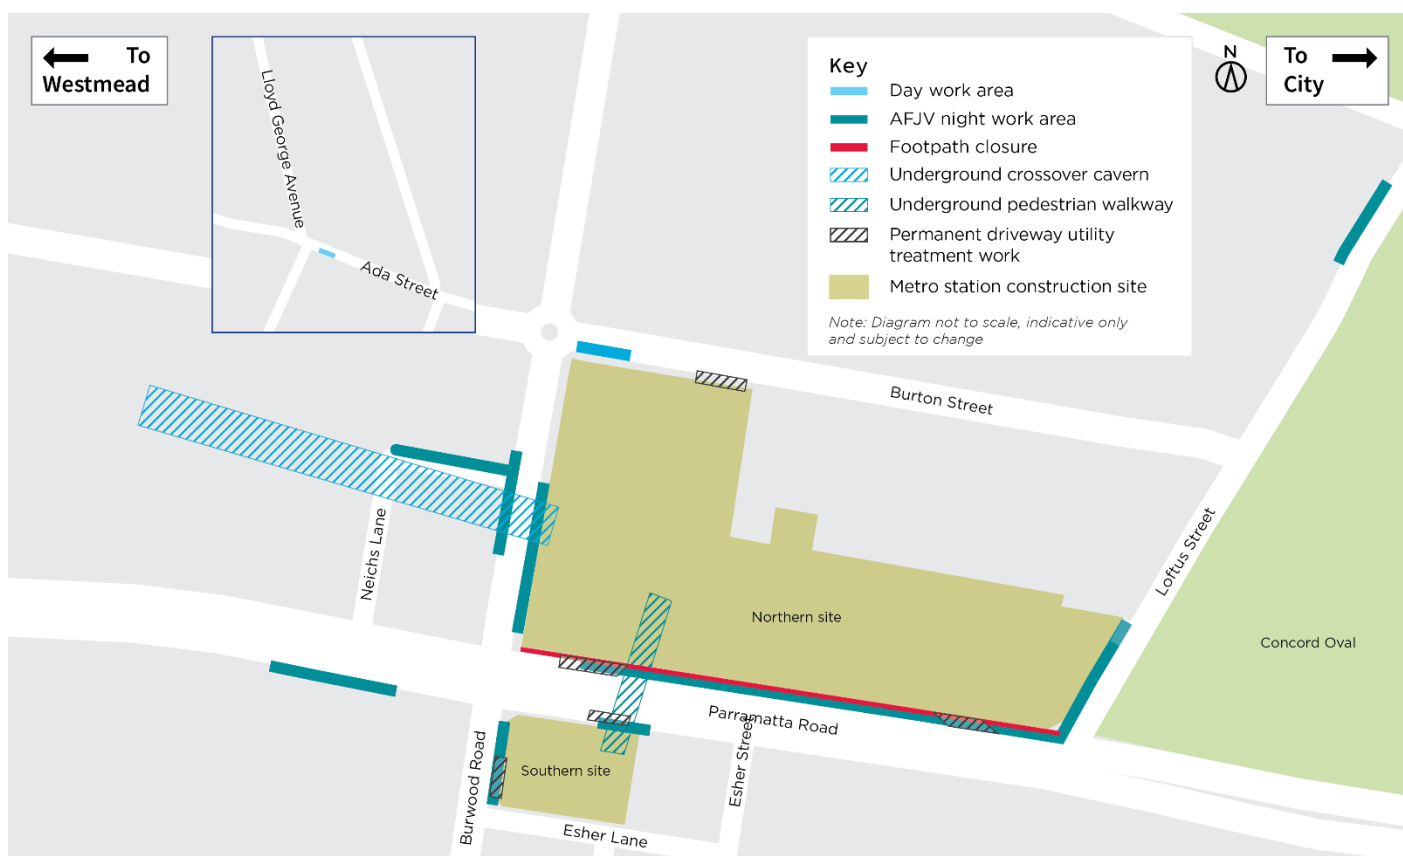

### Equipment used

Equipment used for this work includes but is not limited to: trucks, light vehicles, excavator and hammer attachment, graders, generators, watercarts, concrete trucks, concrete saws, bobcats, elevated work platforms, jack hammers, dozers, lighting towers, roadheaders, vacuum trucks, vibratory rollers, drill rigs, concrete pumps and hand tools.

### Changes to traffic, pedestrian and cyclist routes

Traffic control will be in place to assist motorists, pedestrians and cyclists with temporary changes to traffic conditions including partial road and footpath closures on Burwood Road, Burton and Loftus streets, Parramatta Road and Esher Lane. Excavated material may be removed from both sites using site driveways located on Parramatta and Burwood roads as well as Burton and Loftus streets between 7am and 10pm. Property and driveway access will be maintained at all times.

### Burwood North Station work area Contact us

Please contact Liz from the AFJV community team on 1800 612 173 or by email if you have any questions, complaints or would like to provide feedback about the work, including appropriate response periods.

We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to [metrotunnelsAFJV@transport.nsw.gov.au](mailto:metrotunnelsAFJV@transport.nsw.gov.au) and we will add you to the distribution list. Sydney Metro has launched Sydney Metro Connect - a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play. Thank you for your cooperation while we complete this essential work.
