

Monthly update – Eastern Creek

August 2023

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West. Sydney Metro has built a precast facility at Eastern Creek to manufacture concrete segments needed to line the twin tunnels for Sydney Metro West.

Construction update: precast facility

The precast facilities are now fully operational and producing concrete segments 24 hours a day, five days a week (Monday to Friday) and between 7am and 6pm on Saturday.

The main activities include:

- Deliveries of materials, plant and machinery
- Stockpiling of construction material
- Producing concrete segments
- Loading and transporting concrete segments to construction sites at The Bays and Rosehill.

What to expect

- Access to Lenore Drive and surrounding properties will be maintained at all times
- There will be increased vehicle and truck movements
- The work will generate some noise and the team will minimise impacts where possible

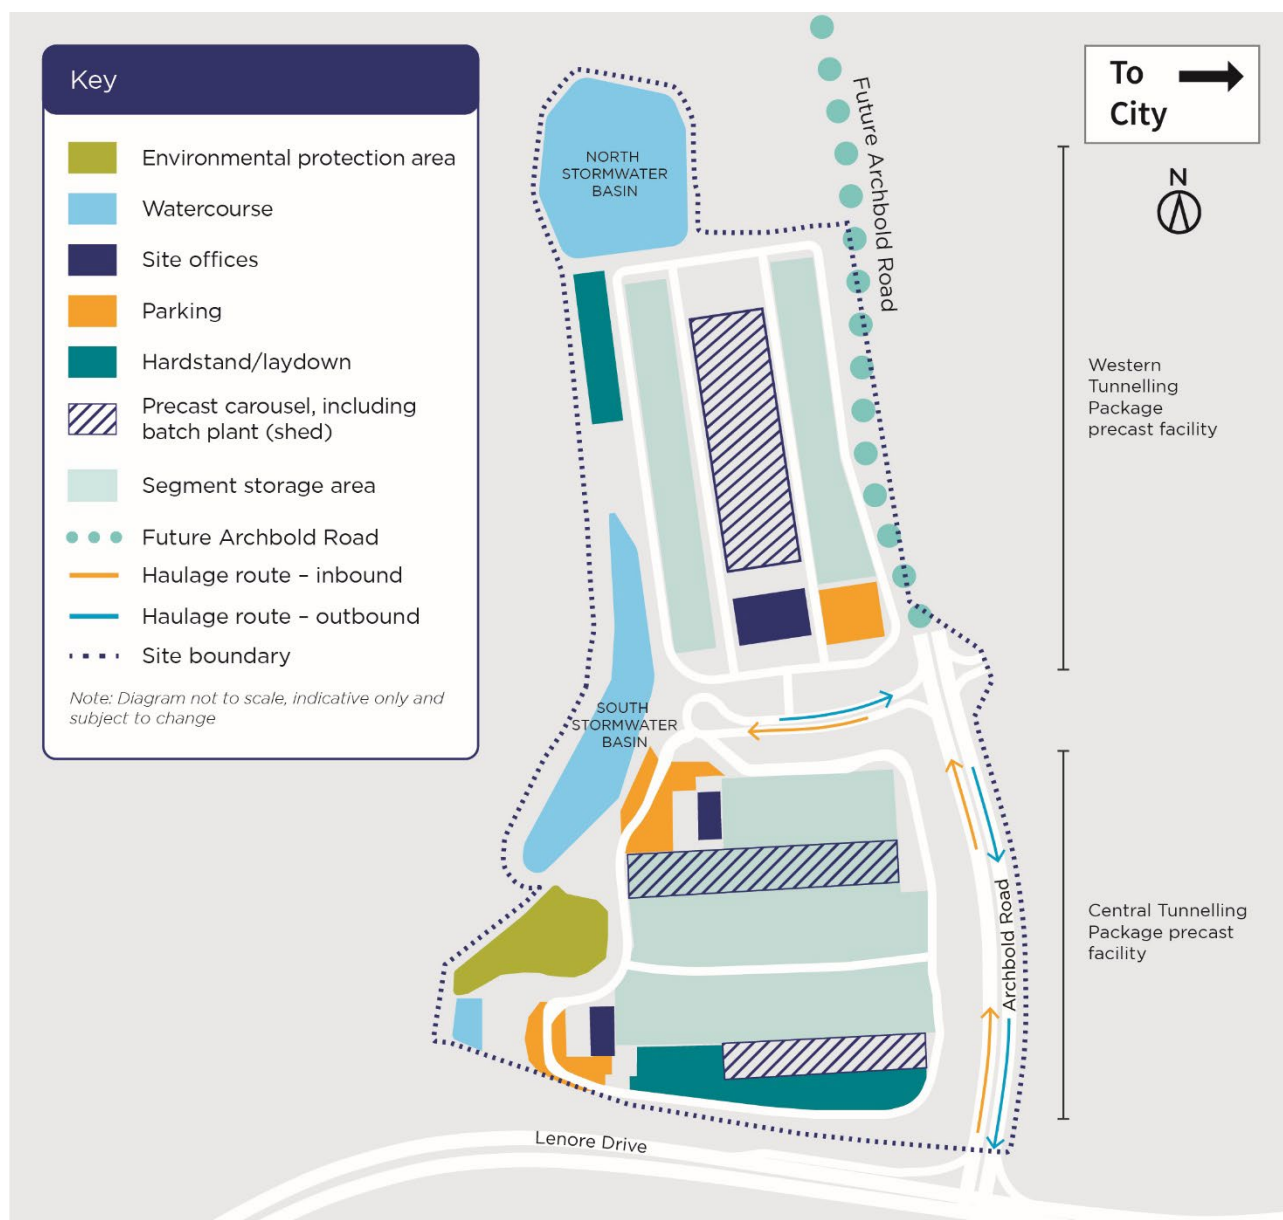

Equipment used

Equipment used for this work includes but is not limited to road trucks, concrete trucks and pumps, mobile cranes, water carts, elevated work platforms, scissor lifts, street sweepers, telehandlers, forklifts, jack hammers, saw cutters, temporary fencing, heavy and light vehicles and generators.

Changes to traffic, pedestrian and cyclist routes

During the work, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions.
