

Notification – Pyrmont East

Out of hours work

March 2024

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

John Holland CPB Contractors Ghella Joint Venture (JCG) has been awarded the contract to deliver 3.5 kilometres of twin metro rail tunnels between The Bays and Hunter Street and to excavate the Pyrmont and Hunter Street metro stations.

We are continue installing the steel platform that will form part of the future acoustic shed and start excavating the shaft at Pyrmont East.

Upcoming out of hours work

To support our work to build the steel platform and acoustic shed, additional deliveries scheduled out of hours are required. These deliveries will involve using the tower crane to unload materials from delivery vehicles into the Pyrmont east site.

Work will be scheduled between **6pm and midnight for up to three nights per week** and will continue until mid-2024 when the acoustic shed is built. Specific nights that deliveries and work is scheduled will be notified in the weekly email update. Please email MetroTunnelsJCGJV@transport.nsw.gov.au to subscribe to updates.

Deliveries will take place via Union Street and Pyrmont Bridge Road. Extended lane closures are required along Pyrmont Bridge Road between Edward and Union streets. During this time, we will use the tower crane to unload steel segments from the construction vehicles into our site.

Above: oversized deliveries to Pyrmont East site

Equipment and machinery used

May include but is not limited to a tower crane and mobile cranes, lighting towers, traffic control equipment, hand tools and generators.

What will this mean for you?

During construction, you may notice:

- Periods of increased noise
- Worksite lighting
- Presence of construction workers and vehicles, traffic controllers and traffic management
- Temporary footpath and lane closures.

Managing our impacts

Construction activities may generate increased noise and will be mitigated on site, where possible.

We aim to reduce impacts on the community and the environment by:

- Scheduling deliveries at the start of the shift, where possible
- Completing noisy work by 10pm each night
- Directing lighting away from properties.

Contact us

Please contact JCG Community team on **1800 612 173** if you have any questions or would like to provide feedback about the work.

We will continue to keep you updated on the progress of work in your area. If you would like to receive weekly updates about our work, please send a request to MetroTunnelsJCGJV@transport.nsw.gov.au and we will add you to the distribution list.
