

Notification – Restoration of footpath and plantings, removal signage and markings.

The new North West Metro is now open.

There are 13 metro stations and 4000 new commuter car parking spaces across the north-west region of Sydney.

The fast, safe and reliable driverless metro trains are fully-air conditioned with new customer benefits like multi-purpose spaces for luggage and parents with prams, as well as wheelchair spaces and priority seating in each carriage.

As part of the restoration of areas disturbed for the operation of Station Link, we will be relocating the taxi rank back to Victoria Avenue and replacing the street trees that were removed for Station Link. This will involve removing the KEEP CLEAR pavement marking and reinstating the signage and small areas of footpath. The work locations are shown on the map overleaf.

Works will involve:

- Removal of markings, signs, footings.
- Restoration of footpaths
- Planting of new trees.

Hours of work

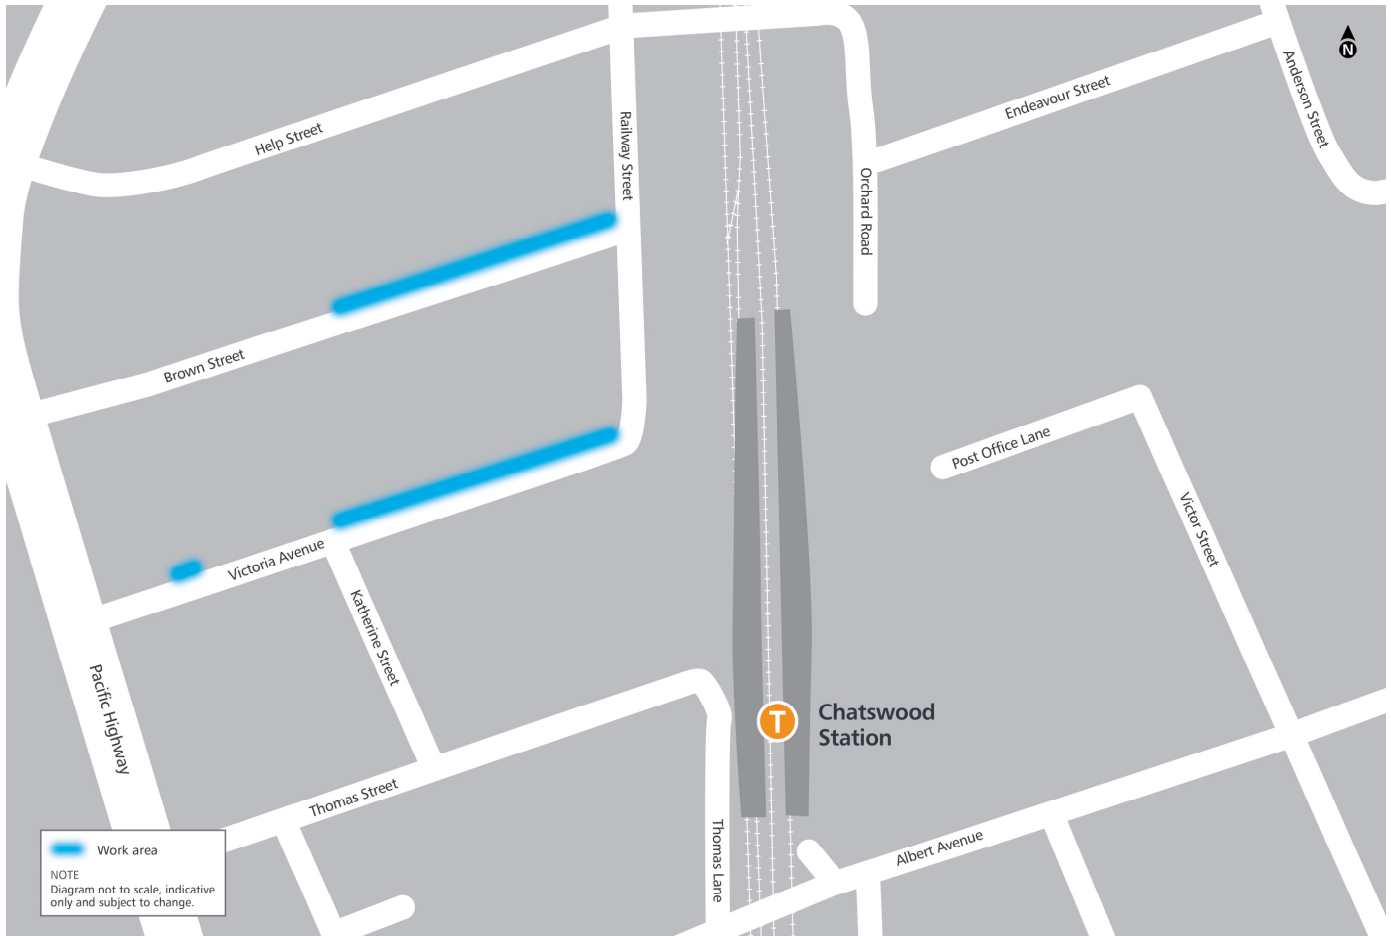

Permits require avoiding disruption to daytime traffic and pedestrians using bus and train services around Chatswood Station, works will be completed outside of standard construction hours on **two nights on Sunday 21 and Monday 22 July** between **8pm and 5:00am** weather and site conditions permitting.

What to expect

- Temporary partial lane closures along Brown, Railway and Help streets and Victoria Avenue for the safety of motorists, workers and pedestrians.
- Traffic management will be in place to assist motorists and pedestrians.
- The noise from these activities is expected to be minimal and short duration. Noisiest works will be completed before midnight where possible.
- Equipment will be turned off when not in use.
- Workers will keep voices and communication to a minimum where possible.

Thank you for your cooperation while we complete these works.
