

Monthly update – North Strathfield

27 May 2024

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

Acciona Ferrovial Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations, including a station at North Strathfield.

Work during June

Work will continue within and around the North Strathfield Metro Station site during June. The main activities will include:

- Nozzle lining at the northern end of the station box
- Construction of tunnel boring machine traverse slabs and rails
- Installation of tunnel boring machine services
- Removal of excavator platform decks
- Formwork assembly and removal
- Installation of ground anchors
- Decommissioning of site facilities
- CCTV of sewer mains on Queen Street between Gracemere Street and Nelson Road
- Installation of an electrical kiosk and underground services for onsite utility connections
- Pavement restoration at the Concord Road and Wellbank Street intersection
- Installation of graphics on the hoarding around the site boundary
- Delivery and removal of oversized equipment
- Taking readings from previously installed groundwater boreholes

This work will be carried out during standard construction hours:

- Monday to Friday 7am – 6pm and Saturday 8am – 6pm

Work outside standard construction hours

Some of the utility work, concrete pours, demobilisation of plant, hoarding graphics installation and maintenance, as well as oversized deliveries, must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers. Night work will be carried out on no more than two consecutive nights, no more than three nights per week and no more than 10 nights per month at any one location.

This night work will continue to occur in the work area shown on the map overleaf between **6pm and 5am on Monday, Wednesday, and Thursday nights from Monday 3 June until Friday 5 July 2024.**

What to expect

- There may be some noise associated with the work, but we will try to minimise this as much as possible
- Property and business access will be maintained at all times
- Noise blankets will be used to minimise disturbance during night work
- There will be no disruption to supply of utility services
