General notes on this catalogue for users:

- Users of an electronic copy of this catalogue should be aware that some tables contain hidden columns. These contain codes, information and references not needed in the printed catalogue, but which may be useful for further analyses.
- Most of these catalogues use in-house type and pattern series. Users should first consult the relevant specialist report and then direct any remaining questions to Casey & Lowe.
- The shell catalogue records the attributes of all shells of a particular species from a particular context as having the same catalogue number. These shells (with the same catalogue number) have also been bagged together in storage. This approach is different to other artefact classes, but appropriate for shell.
- Users interested in certain particular artefact classes should be aware that there may be a small amount of overlap between artefact categories.

R	24		15001	archit	floor	tile	clay	frag	DP paver	orange	Aus	45+x45+x20+	34	Small fragment of machine made dust-pressed unglazed paver/floor tile. Well m/c evenly fired to orange fine paste with rare rounded dark red 2-4mm ironstone inclusions. One very smooth face with slight ware. 5YR 6/6.	c. 1890		1	1	1
R	29		15002	archit	stru	brick	clay	frag	EP Brick	pink	Aus	92+x69+x72	654	Corner of an extruded brick with a pressed inverted hip frog. Very poor m/c fired to a pale orange pink. Frequent 2-4mm subangular ironstone and occasional larger (>10mm) pieces, occasional platy voids. Chipped arrises, very smooth faces. Medium density 5YR 7/4.	c. 1870		1	1	1
R	29		15003	archit	stru	brick	clay	frag	DP Brick	orange red	Aus	93+x107x65	960	DP brick snapped header.
