

Notification – Luddenham Metro Station

Sydney Metro is Australia's biggest transport project.

July 2024

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the new 23-kilometre metro railway will connect Bradfield city centre with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

CPB Contractors and United Infrastructure are delivering the Surface and Civil Alignment (SCAW) works and Parklife Metro consortium are delivering the Stations, Systems, Trains, Operations and Maintenance (SSTOM) works. See the list below for the work activities at Luddenham during July. See map for the work locations.

Stations, Systems, Trains, Operations and Maintenance works include:

- Ongoing deliveries of machinery and equipment
- Ongoing heavy vehicle movements to deliver and remove material from site
- Major earthworks including excavating and compacting the main station area and services building to prepare for the base slab works
- Excavations, waterproofing, formwork, steel fixing, and concrete pours to construct the lifts, escalators and electrical pits and base slabs for the main station area and services building
- Trenching and backfilling, and installation of utility services
- Site photography, including using drone camera above the construction site
- Parklife Metro will commence site establishment activities in late July in preparation for linewise rail track installation works in Luddenham, between Luddenham Road and the new M12 bridge. See map overleaf for further information on our work locations.

Surface and Civil Alignment works include:

- Ongoing surface formation and earthworks for the track alignment between Warragamba Pipelines and Elizabeth Drive
- Import and export of Sandstone and excess spoil for the track alignment between Warragamba pipelines and Elizabeth Drive
- Continuing finishing works including basin trimming, topsoiling, landscaping and installation of open drains and fencing
- Ongoing ground maintenance from the pipelines down to Elizabeth Drive
- Fortnightly aerial land surveys of the surface alignment to inform the construction design and planning of the project.

Work hours:

Standard construction hours are **Monday to Friday** from **7am to 6pm** and **Saturdays** from **8am to 1pm**.

Some work will also be required to take place outside our standard construction hours to minimise traffic impacts or to ensure the safety of pedestrians, motorists, and our workers. Out-of-hours work activities will be carried out in line with the project Environmental Protection Licence, Road Occupancy Licences, and Transport for NSW requirements.

Out-of-hours works include:

- Deliveries of over-sized equipment and machinery and materials
- Large concrete pours and concrete finishing works for the lifts, escalators and electrical pits and base slabs for the main station area and services building

Impacted surrounding residents and businesses will be notified in advance of any out-of-hours work.

What to expect:

- Mitigation measures will be in place to minimise impacts including installing noise blankets, where feasible, respite periods during high noise activities, noise and vibration monitoring, and water carts for dust suppression
- Increased light and heavy vehicle movements on surrounding roads, and local road closures. All vehicles will be turned off when not in use, non-tonal reversing alarms will be fitted to plant and machinery and trucks will avoid reversing into and on site, where feasible
- Temporary lighting to ensure a safe worksite will be directed away from properties
- Communication will be limited to radios only when moving and unloading equipment, with no use of horns or loud radios
- Traffic control and signage to safely assist motorists, pedestrians, and cyclists.

Equipment used:

Equipment used will include, but is not limited to, tower cranes, excavators, elevated work platforms, franna cranes, mobile cranes, forklifts and manitous, concrete pumps and concrete trucks, concrete vibrators water carts, jackhammers, compaction equipment, power generators, vacuum trucks, dewatering pump, handheld tools, lighting towers, light and heavy vehicles, and traffic management.

Changes to traffic, pedestrian and cyclist routes:

During these works, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This may include contraflow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals. Access to driveways and buildings will be maintained at all times. Residents will be separately notified if access to driveways will be affected or access to private property is requested.

Three monthly out-of-hours lookahead activities:

Activity	Equipment	Work hours	Timing
SSTOM works			
Oversized plant and equipment deliveries	Traffic management, light and heavy vehicles, generators, lighting towers and mobile cranes	10pm to 7am	Ongoing - 2024
Concrete pours and finishing works	Concrete pump, vibrators, concrete trucks, generators and lighting towers	6pm to 10pm, Monday to Friday 1pm to 4pm, Saturdays	July – August 2024

Feedback:

Detailed Noise and Vibration Impact Statements (DNVIS) have been prepared, including proposed mitigation measures based on noise modelling. We invite your feedback on appropriate respite periods or mitigation measures that may be required to your specific circumstances.

The SCAW and SSTOM Community Engagement strategies are now online. Please visit www.cpbcontractors.cc/SCAWstrategy, or www.parklifemetro.com.au/SSTOMCCS to view the respective strategy and contact us to provide feedback.

A promotional banner for a free Community Day. On the left is an illustration of a Sydney Metro train labeled "WESTERN SYDNEY AIRPORT". The main text reads "Please join us for a free Community Day". To the right is a QR code with the text "Register by scanning the QR code". Below the main text are icons for "Food" (a food truck), "Activities" (a picnic table), and "Project tours" (a directional sign). The event is scheduled for "Sunday 7 July 2024 10am to 2pm". A dark blue bar at the bottom contains the text "Learn about the Sydney Metro – Western Sydney Airport project and hear from our staff!". Logos for the Australian Government, NSW Government, and Sydney Metro are at the bottom.

Sydney Metro – Western Sydney Airport Community Day

Come join us for an exclusive insider's tour highlighting the ongoing construction of the new metro railway line. This rare chance allows you to witness firsthand the development of the new metro bridge over the future M12 motorway and the progress at Luddenham and Bradfield Metro Stations.

Our knowledgeable tour guides will be members from our construction teams, ready to provide detailed insights and answer any questions you have about the project.

Be sure to register for the day via the [QR code](#) or visit [Sydney Metro – Western Sydney Airport Community Open Day | Register](#)
