

# Project update – Victoria Cross

August 2024

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD in 2024, with new metro railway stations at Crows Nest, Victoria Cross, Barangaroo, Martin Place, Gadigal and Waterloo, and new metro platforms at Central, and then onto Bankstown in 2025.

Lendlease will deliver the new Sydney Metro Victoria Cross integrated station development at North Sydney, including the metro station, over station development (OSD) and enhancements to pedestrian connections, retail and public spaces.

## What work are we doing?

### Upcoming work – Victoria Cross construction sites

Below is an indicative table of activities scheduled at the Victoria Cross construction sites in August.

| Location   | Works in August   |
|--|---|
| Victoria Cross Station and OSD South site  | Works may include but are not limited to: <ul style="list-style-type: none"><li>• structural steel installation, formwork and steel fixing</li><li>• concrete pouring via concrete pumps at Miller and Berry streets work zones</li><li>• hoarding modifications</li><li>• installing or removing scaffolding used for safe worker access</li><li>• tower crane and hoist access operations</li><li>• deliveries at the Miller and Berry streets work zones</li><li>• delivery and installation of services and internal fit-out components</li><li>• façade installation and waterproofing</li><li>• stormwater, paving and landscaping works.</li></ul> |
| Miller and McLaren streets intersection<br>Miller and Berry streets intersection | Works may include but are not limited to: <ul style="list-style-type: none"><li>• lane closure and footpath/pedestrian closures on Miller, Berry and McLaren streets</li><li>• concrete sawing and excavation of old pavers and gutters</li><li>• public domain works including landscaping, concrete setting, paving and installation of street furniture</li><li>• traffic light installation</li><li>• road works and resheeting.</li></ul>  |

| Location                          | Works in August   |
|-----------------------------------|---|
| Victoria Cross Station North site | <p>Works may include but are not limited to:</p> <ul style="list-style-type: none"> <li>• lane closure and footpath/pedestrian closures on Miller and McLaren streets</li> <li>• concrete sawing and excavation of old pavers and gutters</li> <li>• public domain works including landscaping, concrete setting and paving.</li> </ul> |
| Adjoining tunnels                 | <p>The following works are being completed by MTR Corporation in the cavern and adjoining tunnels:</p> <ul style="list-style-type: none"> <li>• testing and commissioning activities of electrical services, including power, communications and signalling equipment and systems, and dynamic train testing in the tunnels.</li> </ul> |

## What to expect

- Equipment used will include concrete pumps, elevated working platforms, mobile cranes, tower cranes, trucks, hand-held drills and light vehicles.
- Traffic, street parking and pedestrian changes to surrounding streets. Access to buildings and driveways will always be maintained.
- Traffic control and directional signage will be in place for the safety of workers, pedestrians and the community.
- Some of these activities will be noisy. The project team will limit these impacts where possible. Non-tonal reversing beepers will be used. Workers will be instructed to keep noise to a minimum.

### MTR Corporation work at Victoria Station

MTR Corporation is delivering the Trains, Systems, Operations and Maintenance (TSOM) work, which includes testing and commissioning activities of electrical services, including power, communications and signalling equipment and systems, ventilation systems and dynamic train testing in the tunnels between Chatswood and Sydenham. MTR Corporation will continue accessing the tunnels and station box via the North and South station sites 24 hours, seven days a week.

## Extended work hours

Lendlease will continue working extended hours at both Victoria Cross Station sites on Saturdays and Sundays in early August. During the extended hours on **Saturday 7am to 8am and Sunday 7am to 6pm**, there will be no high noise activities such as rock breaking, rock hammering, sheet piling and pile driving occurring. These extended working hours are reviewed and approved under the standard out-of-hours works approval process.
