

Orchard Hills – out-of-hours work notification

Station Boxes and Tunnelling

14 August 2024

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the new Western Sydney Bradfield City Centre in the south, with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

CPB Contractors Ghella are delivering the Station Boxes and Tunnelling (SBT) works for Sydney Metro – Western Sydney Airport.

Out-of-hours work

The project's standard construction hours are **Monday to Friday 7am to 6pm** and **Saturdays 8am to 1pm**. Most construction work is carried out between these hours, however some work activities may be carried out after-hours to mitigate quality and safety risks, and when assessed as low impact. This is in accordance with the project Environment Protection Licence (EPL), Conditions of Approval, Road Occupancy Licences and Transport for NSW requirements.

To prepare for concrete pours, steel fixing and form work will be completed during extended hours. This work will be carried out between **6pm and 7am**, from **Wednesday 21 August 2024 to Friday 4 October 2024**.

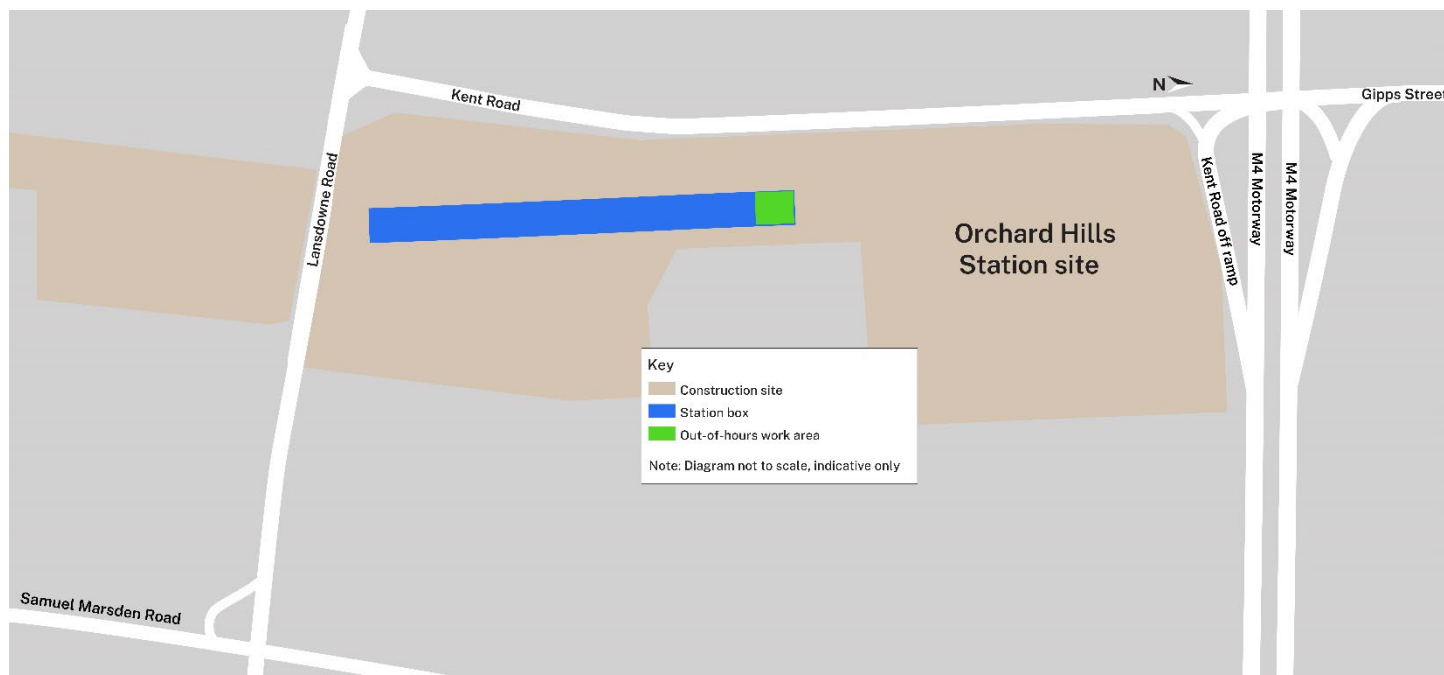

What to expect

- This work is low impact and not expected to generate noise impacts above background levels. Verification monitoring will be undertaken to ensure noise levels are within predicted levels
- Increased work and vehicle movements in and around the work site during the extended hours.

Equipment used

Equipment to be used will include (but not limited to) heavy and light vehicles, mobile crane (telehandler), lighting tower and powered hand tools (small hand and circular saws, drills, impact drivers, grinders).

Work location map

Feedback

Detailed Noise and Vibration Impact Statements (DNVIS) have been prepared, including proposed mitigation measures based on noise modelling. Your feedback on appropriate respite periods or mitigation measures is encouraged.

The SBT Community Engagement Strategy is online. Please visit www.cpbcontractors.cc/SBTstrategy to read or download the strategy and contact us to provide feedback.

Contact us

Please contact the community team by calling **1800 717 703** or emailing sydneymetrowsa@transport.nsw.gov.au if you have any questions, complaints or would like to provide feedback about the work.

To receive updates by email, please contact Sydney Metro to be added to the distribution list.

Thank you for your cooperation while this essential work is completed.

Sydney Metro has launched Sydney Metro Connect – a new way to stay informed.
