

Monthly Notification – Belmore Station

November 2024

Sydney Metro is Australia's biggest public transport project.

By 2032, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia's biggest city travels, connecting Sydney's north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

The T3 Bankstown line between Sydenham and Bankstown was closed on Monday 30 September to complete the final metro conversion works and in 2025, Southwest Sydney will have turn-up-and-go metro services every four minutes in the peak directly into the Sydney CBD. **Fare free Southwest Link buses will replace trains between Sydenham and Bankstown during this time.**

You can plan your trip at transportnsw.info and on real time apps or scan the QR code for more information.

Kerbside changes may also be in place around the affected train stations for temporary bus zones. Please check signage before parking your car.

Sydney Metro work during November

Work will continue during and outside of standard construction hours within and around Belmore Station during November/December. The main activities will include:

- Installation and modification of cables service route, cables and trackside equipment
- Cable termination at the traction substations and stations
- Maintenance, testing and commissioning of services and equipment and trackside inspections
- Delivery and storage of materials, including cables, cable drums and light and heavy vehicles
- Service work and installation of equipment, cables and cabinets in station rooms, buildings and the rail corridor
- Installation and testing and commissioning of rail corridor security system including CCTV, poles and fibre cables
- Site investigations, surveys and associated activities
- De-vegetation and tree clearing throughout the rail corridor where required
- Mobilisation and demobilisation of plant and materials
- Work related to security and segregation fence installation and signalling
- Works at station buildings and platforms including installation of mechanical gap fillers and platform screen doors
- Track related construction activities
- Works related to overhead and high voltage wiring and local utilities
- Works on various bridges along the corridor
- Delivery and construction vehicle movements entering and exiting the site compound on Bridge Road as required
- Temporary traffic and parking changes on Bridge Road and Tobruk Avenue as required to provide rail corridor access
- De-vegetation, site preparation and installation of construction hoarding at Burwood Road overbridge
- Changes to Tobruk Avenue carpark including relocation of community bookshelf and access changes for commuters
- Reestablishment of temporary compound areas at Bridge Road and Tobruk Avenue
- Removal and replacement of some existing utilities at Burwood Road overbridge
- Defect rectification, landscaping, remediation, and maintenance activities

Most work will be carried out during standard construction hours: Monday to Friday 7am – 6pm and Saturday 8am – 6pm.

Work outside standard construction hours

Some activities must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers. Respite hours will be implemented in line with the project's approvals. Highly impacted residents will be notified separately.

What to expect

- Equipment used includes, but is not limited to excavators (including rock hammering equipment), concrete trucks and pumps, concrete vibrators, mobile cranes, elevated work platforms, loaders, rail tamper, hammer drill, rail grinder, hi-rail vehicles, generators, lighting towers, milling machine, paver, water cart, light and heavy vehicles, tippers, dump and delivery trucks, hand-held and electric tools, demolition and road saws, jack hammers, power drills, vacuum truck, asphalt paver, welding equipment, rail and circular saws and compaction equipment including a roller.
- The project team will take every step possible to minimise noise impacts, however some of this work will be noisy. A range of measures are in place to reduce noise and meet the project's approval conditions, including noise barriers, using only the necessary equipment for each task, turning off equipment when not in use and equipping machinery with non-tonal movement alarms.
- Some equipment may be transported outside of standard construction hours in line with Transport for NSW requirements for transporting oversized vehicles.
- Access to buildings and driveways will be maintained at all times.
- We will park our vehicles along the rail corridor where possible however, please be aware that on-street parking may be limited near worksites.

Thank you for your cooperation and understanding while we complete this essential work.
