

# D51 Outcomes of Community Consultation Report July - September 2024 (Q3)

|                       |                   |
|-----------------------|-------------------|
| <b>Applicable to:</b> | Sydney Metro West |
| <b>Status:</b>        | Final             |
| <b>Version:</b>       | A                 |
| <b>Date of issue:</b> | 31 October 2024   |

# 1. Overview

Condition of Approval (CoA) D51 for Sydney Metro West – Concept and Stage 1 Construction (SSI 10038) requires appropriate respite periods to be identified for work carried outside of standard construction hours as identified by CoA D35.

Specifically, CoA D51 states:

*In order to undertake out-of-hours work outside the work hours specified under Condition D35 of this schedule, appropriate respite periods for the out-of-hours work must be identified in consultation with the community at each affected location on a regular basis. This consultation must include (but not be limited to) providing the community with:*

- (a) *a progressive schedule for periods no less than three (3) months, of likely out-of-hours work;*
- (b) *a description of the potential work, location and duration of the out-of-hours work;*
- (c) *the noise characteristics and likely noise levels of the work; and*
- (d) *likely mitigation and management measures which aim to achieve the relevant NMLs under Condition D39 (including the circumstances of when respite or relocation offers will be available and details about how the affected community can access these offers).*

*The outcomes of the community consultation, the identified respite periods and the scheduling of the likely out-of-hour work must be provided to the AA, EPA and the Planning Secretary.*

This document provides the final component of condition D51 highlighted above, namely *the outcomes of the community consultation*.

This report covers the period from July to September 2024 inclusive. This report has been generated from records in Consultation Manager and is provided to the AA, EPA and Planning Secretary in accordance with CoA D51. This report covers interactions triggered through consultation methods. It does not duplicate complaints received regarding out-of-hours work, rather a register of complaints is submitted separately through the Major Projects Portal according to CoA B6 on a monthly basis.

The compliance matrix for all requirements of CoA D51 can be found in **Attachment A**.

Phases included in this report are:

- Phase B – AFJV Central Tunnelling Package
- Phase F – GLC Western Tunnelling Package
- Phase H - Quickway

Addressing feedback is categorised as follows:

|   |   |
|---|---|
| <b>Further clarification provided</b>         | Additional explanation of works, such as the reasons behind why works may need to be undertaken at night, why utility outages may need to be undertaken at a particular time.                                   |
| <b>Alternative mitigation measure offered</b> | Through consultation, these may include alternative preferences for voucher offers (restaurant, bowling etc.), alternative accommodation (AA) or a different accommodation location to that originally offered. |
| <b>Ongoing consultation</b>                   | Includes individual notifications of works changes or potential uptake of additional mitigation measures in the future if the stakeholder wishes to accept for future notified works.                           |

## Attachment A – Compliance Matrix

| Condition Requirement   | Compliance Method based on Sydney Metro OOHW Protocol   |
|---|---|
| <b><i>D51 In order to undertake out-of-hours work outside the work hours specified under Condition D35 of this schedule, appropriate respite periods for the out-of-hours work must be identified in consultation with the community at each affected location on a regular basis. This consultation must include (but not be limited to) providing the community with:</i></b> | <p>Newsletters (three (3) month programme) and Notifications (seven (7) day program) include details to <b>Contact Us</b>.</p> <p>For example, a Notification for works in Rozelle includes the following:</p> <p><b>Sydney Metro recognises that our work will have impacts and wherever possible we will work with the community to mitigate these impacts. We will continue to keep you updated on the progress of works in your area. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.</b></p> <p><b>Your local Place Manager, Nelson will be your main contact for questions and enquiries regarding the project and can be contacted on 1800 612 173.</b></p> <p><b>If you would like to receive these updates via email, please contact Nelson who can add you to the distribution list. Our email is: <a href="mailto:sydneymetrowest@transport.nsw.gov.au">sydneymetrowest@transport.nsw.gov.au</a></b></p> |
| (a) <i>a progressive schedule for periods no less than three (3) months, of likely out-of-hours work;</i>   | <p>Newsletters (three (3) month programme) and Notifications (seven (7) day program) include this information.</p> <p>These consultation tools are also posted on the Sydney Metro website (<a href="#">Australia's biggest public transport project   Sydney Metro</a>).</p> <p>As per the OCCS, where it is identified that a resident is entitled to a respite or an alternative accommodation offer, the resident is contacted directly by the Place Manager. The method of contact depends on what details are available – phone, email or personalised mail or door knock.</p>  |
| (b) <i>a description of the potential work, location and duration of the out-of-hours work;</i>   |   |
| (c) <i>the noise characteristics and likely noise levels of the work; and</i>   |   |
| (d) <i>likely mitigation and management measures which aim to achieve the relevant NMLs under Condition D39 (including the circumstances of when respite or relocation offers will be available and details about how the affected community can access these offers).</i>  |   |
| <b><i>The outcomes of the community consultation,</i></b>   | <p>This report, the Outcomes of Community Consultation Report.</p> <p>This report is issued to AA and EPA (by email) and Planning through the portal.</p> <p>This report is also issued to the ER's.</p>  |
| <b><i>the identified respite periods and the scheduling of the likely out-of-hour work must be provided to the AA,</i></b>  | <p>OOHW Permits, which include respite and OOHW scheduling information, are provided to the AA for endorsement.</p>   |
| <b><i>EPA and the Planning Secretary.</i></b>   | <p>This information is provided to the EPA and Planning Secretary as per the process approved in the OOHW Protocol. i.e. through the addition of nominated EPA and DPE representatives to the distribution lists for Newsletters (three (3) month programme) and Notifications (seven (7) day program).</p> <p>These consultation tools are also posted on the Sydney Metro website (<a href="#">Australia's biggest public transport project   Sydney Metro</a>).</p>  |
