

Notification – St Marys Station footbridge

March 2025

Transport for NSW is delivering a new footbridge and northern plaza at St Marys Station as part of the Sydney Metro – Western Sydney Airport project.

What work are we doing:

During **March**, work activities will include:

- electrical, hydraulic, excavation, and concrete work on all station platforms and within the Harris Street compound
- utility service investigations on Harris Street and around the multi-storey car park
- crane and lifting operations in the Harris Street work area and on station platforms
- delivering and removing materials and equipment via Hobart Street, Harris Street, Glossop Street, and Forrester Road
- oversized deliveries to and from the Harris Street work area and will require the temporary removal of up to 10 parking spaces prior to, during, and following the weekends of 8–10 March and 22–24 March, for up to seven days each time.

What to expect:

- more workers and vehicles around work sites, laydown areas, and station platforms, particularly during weekend work
- traffic control and signage as required
- temporary parking removal on Harris Street will be required before and after our weekend work to accommodate oversized deliveries and removals from the site, including the crane used during the weekend work.
- equipment to be used includes drills, demolition saws, excavators, saw cutters, dump trucks, front end loaders, vacuum trucks, semi-trailers and rigid trucks, concrete pumps, concrete trucks, mobile crane, light towers, power tools, survey equipment and hand tools.

When and where we'll be working:

Standard working hours are **7am to 6pm, Monday to Friday** and **8am to 1pm, Saturdays**. Our work and

laydown areas are shown on the maps over the page.

Work outside standard construction hours:

In March, some work will take place continuously during scheduled Sydney Trains trackwork weekends.

Work is planned from **1am Saturday 8 March to 7am Monday 10 March** and from **1am Saturday 22 March to 7am Monday 24 March**. Key activities include:

- removing and delivering materials
- concreting, excavation, and reinforcement work
- electrical and hydraulic work.

We also plan to extend work hours on three Saturdays to start from **7am** and finish at **3pm** on 1, 15 and 29 March.

Managing our impacts:

We aim to minimise impacts on the community and environment. The site compound is designed with this in mind by:

- installing fencing for safety and security
- reducing noise by turning off machinery when not in use and using temporary noise barriers where feasible.

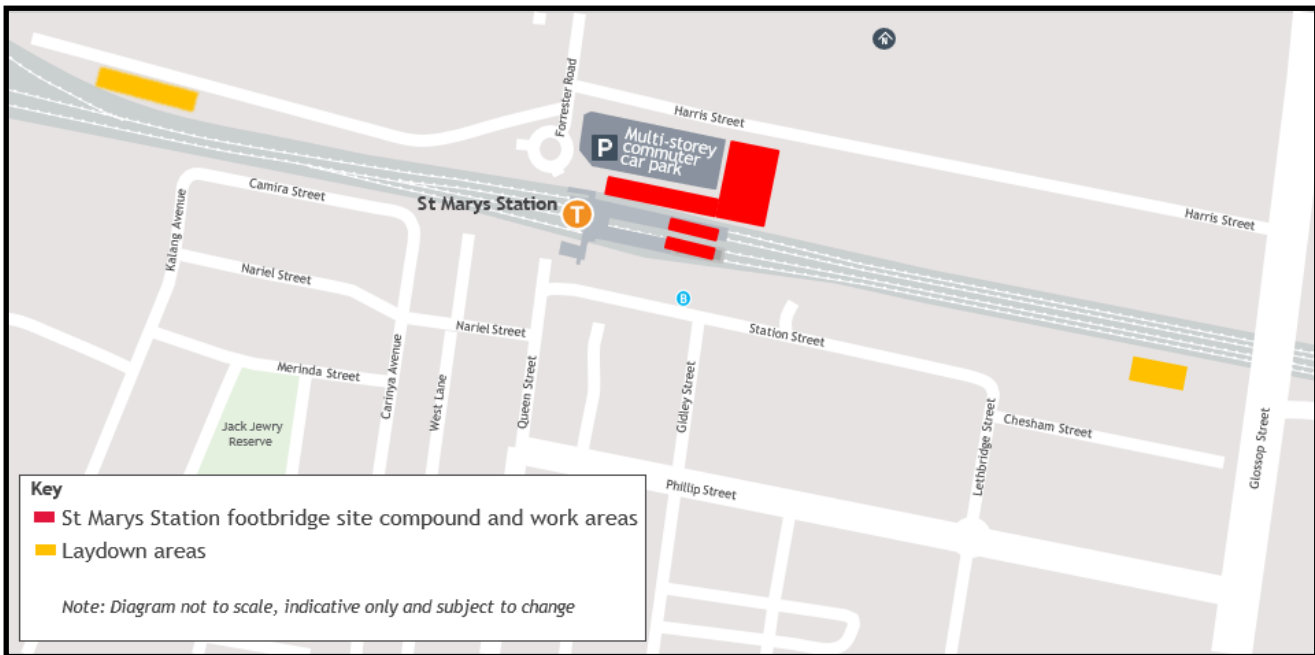

Planned work outside of standard hours over the next three months:

Planned work activities (subject to approval) include excavation, concrete work, electrical work, and removal of equipment and materials on the following dates:

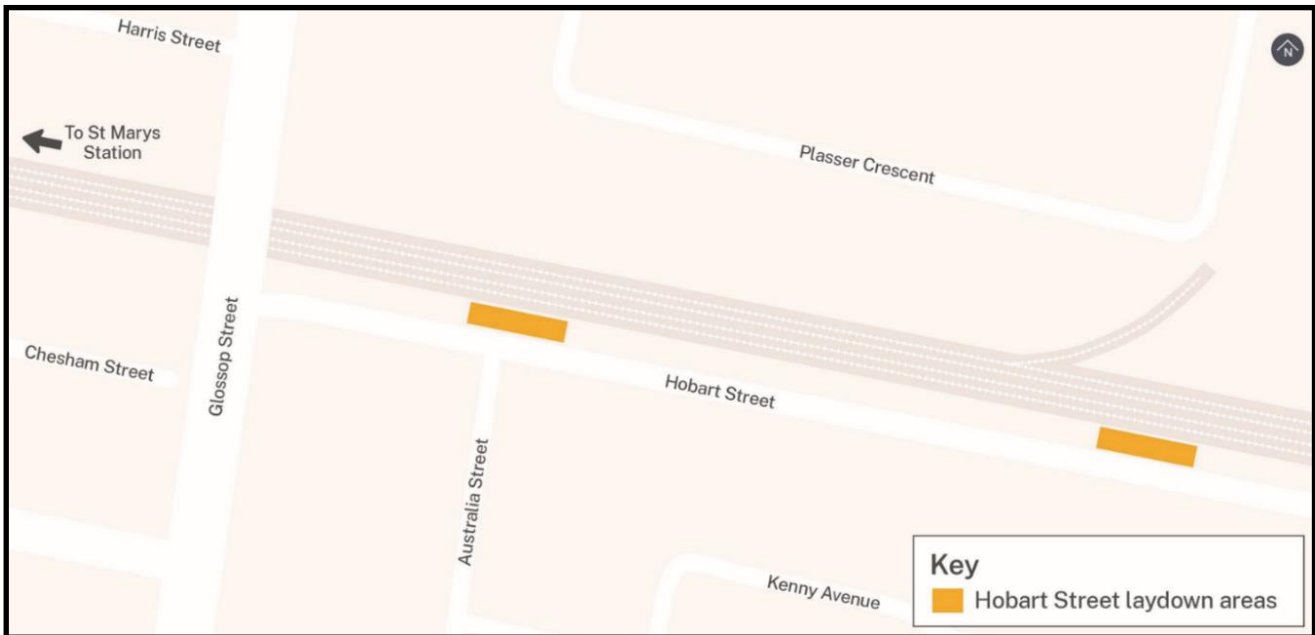

- Saturday 8 March to Monday 10 March
- Saturday 22 March to Monday 24 March
- Saturday 3 May to Monday 5 May
- Saturday 31 May to Monday 2 June
