

# Upcoming temporary bridge closure – Melford Street overbridge, Hurlstone Park

## Weekend and night works - commencing Thursday 27 March 2025

To secure the corridor and safe operation of Metro trains, we are strengthening the existing rail overbridge barriers. Major traffic changes will be implemented while delivering and installing steel beams, including over sized equipment and lifting structures using cranes.

**Temporary parking restrictions and detours will be in place during the day and at night from 7am Thursday 27 March until 5am Monday 31 March. Access will be changed for some residents and local access only will apply to Melford and Canberra streets and on the other side of the overbridge at Hurlstone Avenue and Hutton Street.** The overbridge will be closed throughout the duration, including for pedestrians.

**Parking removal is required on both sides of Melford Street in front of 120 and 124 Melford Street and between 59 and 63 Melford Street. Please park in an alternative parking space on Melford Street. Parking will also be removed on the corner of Canberra and Melford streets throughout the duration.**

**Work will be continuous across the weekend, however we will take breaks from noisier construction work.**

Date and time	Activities and Impacts	Location
Thursday 27 March, 7am until 5am Friday 28 March	<ul style="list-style-type: none"><li>Truck movements</li><li>Establishment of no parking zones at the corner of Melford Street and Canberra Street.</li><li>Set up traffic detours</li></ul>	Melford and Canberra streets. Between 120 – 124 and 59 and 63 Melford Street and 1 Canberra Street.
Friday 28 and Saturday 29 March	<ul style="list-style-type: none"><li>Crane delivery and assembly.</li><li>Utility protections.</li></ul>	Same as above
Saturday 29 and Sunday 30 March between 7pm until 5am	<ul style="list-style-type: none"><li>Crane movements on Saturday night.</li></ul>	Melford Street overbridge on Melford Street between Hutton and Canberra streets
Sunday 30 March from 7am until 5am Monday 31 March	<ul style="list-style-type: none"><li>Removal of equipment and material using trucks.</li><li>Reinstatement of overbridge and road.</li><li>Removal of detours and no parking zones.</li></ul>	Trucks exiting through Canberra Street

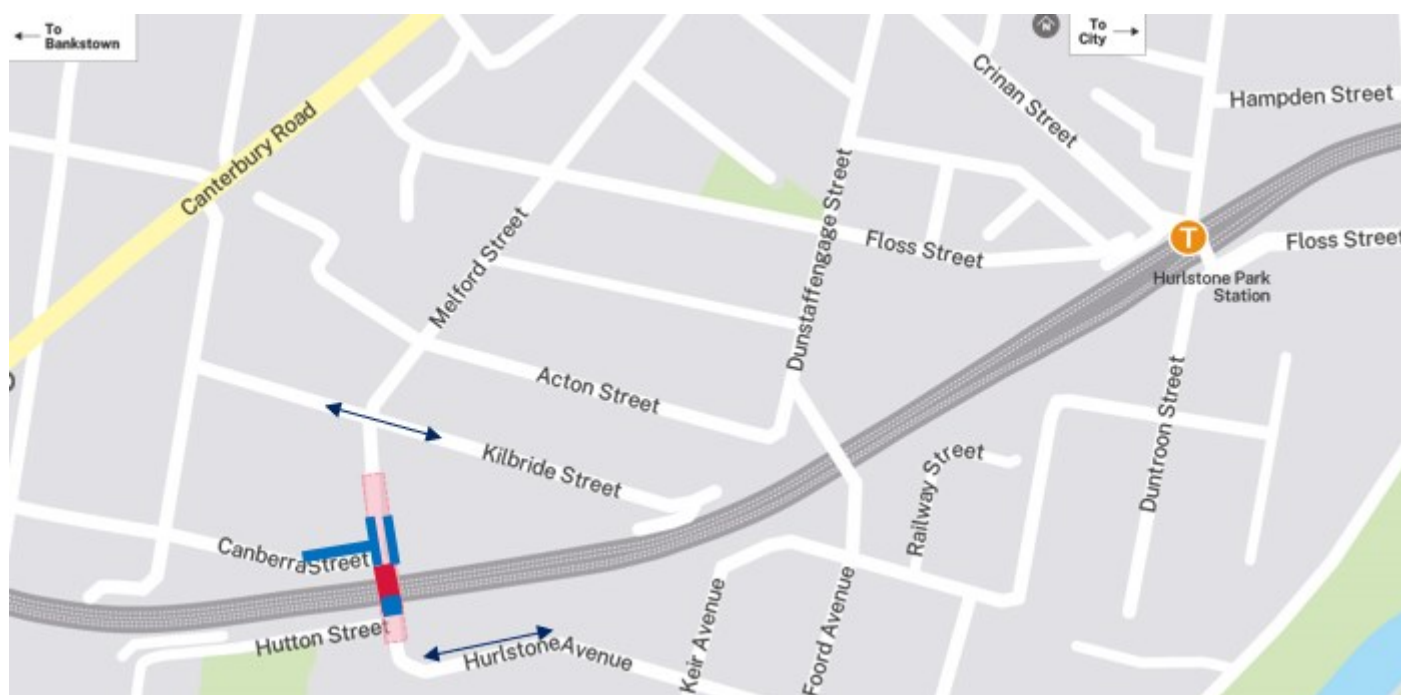

**Deliveries may be noisy for short periods and will involve traffic controllers establishing signage and no parking areas, unhooking equipment, lights, and reversing beepers.** We will be using crane equipment, hand held powered tools, elevated work platforms, truck mounted crane, construction vehicles, over-sized trucks, delivery trucks, lighting towers and generators.

The team has carefully planned works to minimise impacts on local residents where possible, including working during the day where we can, maximising delivery time for the equipment and staging work to decrease commuter disruption. We will return to the Melford Street overbridge to install new screen barriers in June. Thank you for your understanding and cooperation while we complete these important works for the community.

During these periods, the overbridge will be closed to traffic in both directions, however local access will be managed through traffic control. All other commuters will be detoured around the overbridge. Speed limits will also be reduced to manage the traffic flow during the work period.

If you have any questions please contact the community team via our 24 hour community information line on 1800 171 386 (ask for the CIRA - Corridor Intrusion Risk Assessment team) or e-mail [southwestmetro@transport.nsw.gov.a](mailto:southwestmetro@transport.nsw.gov.a)

### Work location map – Melford Street overbridge

#### Key

-  Hurlstone Park station
-  Work location (overbridge closed)
-  No parking Thursday 27 – Monday 31 March
-  Temporary local access only and truck delivery route
-  Detour around the work area (please follow instructions of traffic control)

*Note: Diagram not to scale, indicative only and subject to change.*
